THE ANNUAL REPORT  
2011

"Helping brothers and friends is a humanitarian duty. It's friend's duty to serve his friend's needs. The Almighty creator has put, in the heavenly religions, rules for the human being to be in support for his brother; the most important of these rules are mercy and solidarity. Then, the able will assist the unable. To add, we cannot isolate ourselves from the rest of the world. Hence, we establish friendships in honor, cooperate in dignity, and help without arrogance or boastfulness; besides we stand by principles of equity and justice."

## SMALL-PROJECTS

In fact, the sponsorship amount is not sufficient to meet all the orphans' requirements. Thus, HAI provides loans for orphans' families so as to establish private projects. Further, it creates a space of time to repay the loans during two years through easy payments. After years, we touched great development in relation to the financial aspect for most of the families who undertaken the experience. Hence, HAI decided to expand the number of beneficiaries. HAI invites all the benevolent to finance its activities as "ongoing charity" to be circulated amongst orphans' families. The mechanism of its circulation is manifested in paying the loan to another family after the first pays it back. The total of the executed projects exceeded 770 projects during 2011 for more than a million and a half AEd.

It planned to import the orphans' mothers products to sell it in the local Emirati market. The activity was encountered with great success for it found many customers. In the current times, HAI is keen to develop it strategically to create new chances for its growth so as to support the orphans' families.
